

Manufacturer of technically advanced
flashlights and watertight
protector cases

Medium Cases

#1560 CASE

Unbreakable, watertight, dustproof, chemical resistant and corrosion proof. The 1560 is built from copolymer polypropylene that makes it virtually indestructible and corrosion proof. It is sealed with a polymer sponge o-ring and features an automatic pressure equalization valve that ensures it is completely watertight. Its "double step latches" make opening it easy, while still providing strong enough force to keep the case securely closed when dropped or abused. The 1560 features the addition of extremely durable ball-bearing polyurethane wheels as well as an extension handle, with effortless release latch, for easy transport. It also features rubberized front and side grips for maximum comfort.

Unconditionally Guaranteed ... forever.

TEMPERATURE RATING			
MINIMUM	-23° C	MAXIMUM	+99° C
DIMENSIONS			
INSIDE	51.79 x 39.17 x 22.86 cm	OUTSIDE	56.01 x 45.52 x 26.44 cm
