TEKNO

**Timeless design and harmonious style.
Perfect in function and perfectly made.**

The TEKNO plastic case gives you packaging with a modern design, as well as a practical and durable advertising medium, which offers optimal protection for technical and promotional products.

The functional clasp and sturdy hinges ensure high stability.

▲ In addition to TEKNO 2003 there are now also TEKNO 2003 S and TEKNO 2003 M. For smaller cases in DIN A5 format there are a large selection of sizes.

◀ Used as a moderator case the TEKNO 2011 creates a good impression.

▼ The half shells of the TEKNO offer large printable surfaces suitable for high quality screen printing. Advertising effect is guaranteed! The coloured locks can be changed to contrast with the case.

► Even the largest TEKNO case model comes in different thicknesses - TEKNO 2017, TEKNO 2018, TEKNO 2019

standard colours:

black, red, blue, silver-grey, dark blue, anthracite, transparent

clasps:

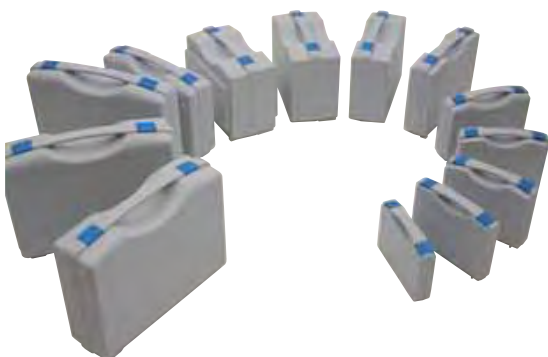

black, red, blue, silver-grey, yellow

Special colours are available on request.

material:

polypropylene

▼ There's no way your product won't fit! Our range of models encompasses 13 different sizes. This means that TEKNO is ready for every use and capacity.

TEKNO 2019	450 x 360 x 140 mm	437 x 295 x 132 mm

NEW

HEAVY

**Application and function at the highest level.
Attractively transparent and harmoniously
designed.**

The HEAVY-case has the new and unique sandwich frame construction for highest stability.

With it's powerful and harmonic design HEAVY is coming up to the highest aesthetic and functional demands. The robust construction makes the HEAVY perfectly suited as a case for heavy loads and fright.

The new sandwich frame makes the synthetic injection moulding case a high limited packaging.

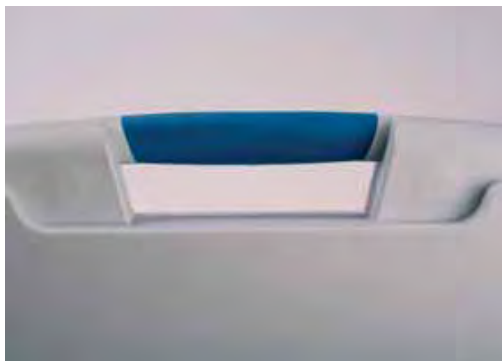

The knee-lever clasps seal the trunk casing together affording increased stability.

HEAVY is now available in six different sizes. From the beginning of the year 2007, the cases series will be supplemented with three further, smaller cases.

With the soft touch handle you won't lose your grip even with heavy loads. Good grip and comfortable handling assured.

The feet fitted to the case allow you to stack them safely and without risk of slipping, for instance in delivery vehicles.

▲ HEAVY 4028

The smallest size of the case, the HEAVY 4028 offers a lot of reservoir for flat products.

▲ HEAVY 4032

HEAVY 4032 combines one shell of HEAVY 4028 and one of HEAVY 4036.

If HEAVY 4028 is too small as packaging for your products, you will find the correct solution with the intermediate size, the HEAVY 4032.

▲ HEAVY 4036

The two deep half shells of the HEAVY 4036 allow large items, for example measuring instruments, to be carried in the case. The case can be fitted with a customised foam interior to avoid damage and give optimal protection to the sensitive contents.

A divider can be inserted where necessary, which allows the upper compartment to be filled, thereby using all the available space.

Durably and variously useable. You will find your optimal model among the different size dimensions of HEAVY.

▼ HEAVY – in action

The option of selecting different colour combinations of the upper and lower parts, handle and locks, according to the screen printing colour, allows the HEAVY to match perfectly to any corporate design.

The large printable surface on the lid and the bottom of the case offers a lot of possibilities for an individual layout. Use the advertising effect and print your logo or slogan on the case.

Even the divider - which can be delivered as an accessory - can be printed. Examples mentioned on page 8.

standard colours:

black, red, silvergrey, dark blue, anthracite, transparent

clasps:

black, red, silvergrey, dark blue, anthracite

SWING

Chic design and format. Attractively functional.

SWING - an attractive and practical packaging for smaller products, which has already proved itself in the Pharmaceutical and Dental sectors, the advertising and promotion industries and also the technology, measuring instrument and office sectors.

SWING combines an attractive design with practical applications. The printable case and foam inlay are perfectly designed for good presentation, e.g. of promotional items.

SWING is available in 13 standard colours and 3 different sizes. The handle, upper part and lower part are available in different colour combinations.

standard colours:

black, red, silvergrey, transparent, blue, dark blue, yellow, green, white, red-translucent, blue-translucent, green-translucent, yellow-translucent

SWING protect –

the mobile organisation system

A charming and stylish design.
Superior and versatile in application.

SWING protect in practical DIN A4 format is ideal for presentation, storage, mailing or archiving.

Valuable documents can be kept safely and the optional ring-binder insert ensures that they can be filed away neatly and orderly.

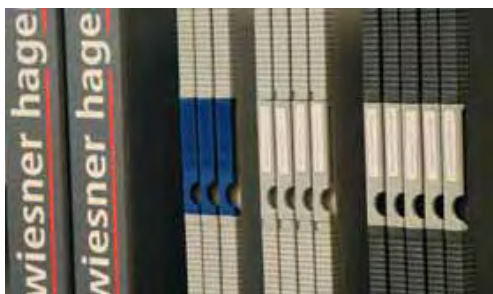

The possibility of sealing the case makes sure that the contents can be safely despatched.

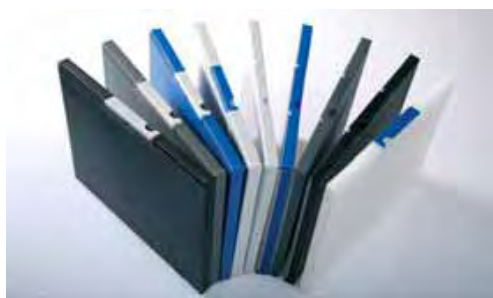

SWING protect can be sent through the post.

SWING protect facilitates the organisation of your office. The box can be used to complement ring binders and files and fits in all standard filing cabinets.

Tags are provided to label the handle and provide an at-a-glance overview.

SWING protect is available in 6 standard colours

standard colours:

Salsa

Easy living

A unique character. Smart and snappy design with exceptional functionality.

▲ SALSA 1400

▲ SALSA 1600

▲ SALSA 1800

The SALSA box is particularly multifunctional. It is a real looker as a presentation box or as sales packaging because of its unique design and therefore always shows the contents off in a good light.

SALSA promises perfect product presentation as the box can be stood on all 4 edges.

With its pop-out handle, SALSA can also be used as a briefcase - documents can easily be carried around. Important documents, like quotations for example, can be transported comfortably and in protection, ready to be presented to the customer in style.

Sending it by mail? No problem, because for some sizes SALSA is guaranteed mail-ready. Just post them, without envelopes or special post bags.

SALSA is available in 13 standard colours and 9 different sizes. Handle, upper part and lower part are available in different colour combinations.

standard colours:

black, red, silvergrey, transparent, blue, dark blue, yellow, green, white, red-translucent, blue-translucent, green-translucent, yellow-translucent

FOX

**Dynamic and flexible in use.
Solid design with clear functionality.**

The very sturdy FOX box can be used for storage or as a shipping container. The materials and workmanship used make the box extremely robust and durable.

No space will be wasted thanks to special tracks which can be fitted into the walls.

FOX is available in four different sizes which comply with European standards and are therefore exceptionally suited to pallet transport.

Two boxes, combined with castors and spacers, make an all-purpose trolley.

Individually assembled box shelves can be placed where larger shelves won't fit.

Alongside the traditional uses in workshops and warehouses, FOX boxes are also useful in doctors' practices, hospitals and laboratories.

FOX is available in 8 standard colours. With each FOX box you also get an inspection pane and a label.

standard colours:

blue, green, red, yellow, white, anthracite, transparent, green-translucent

Special colours are available on request.

Print

A place to stick your message.

Print your packaging with your logo or slogan and use screen printing as an effective information medium.

The imprint can be made in single or multi colours in your desired size and position.

We are able to introduce screen printing for your cases and boxes.

Inlays

Always individual and consequently perfectly designed and made.

The foam will be individually designed according to the items inside the case in order to avoid damage and to guarantee optimal protection of the contents.

Layout possibilities:

- **Standard profile-foams in different sizes**

Very reasonable prices and useable in combination with PU-soft foam and PE-hard foam.

- **PU-soft foam**

Very reasonable foam material. Suitable for light and middle weight items, for example a heart rate monitor.

- **PE-hard foam**

Very high-quality material. Suitable for heavy contents for example a gas valve.

Special inlays:

- **Deep-drawing insoles**

Resistant to moisture and dirt. Printable in high quantities for pricing savings.

- **Special equipments**

Can be provided on request.
